IMPORTANT DISCLOSURES

1. General Disclosure – The materials do not purport to contain all of the information that may be required to evaluate the investment strategy or a portfolio and you should conduct your own independent analysis of the presentation. If any offer of securities is made, it shall be pursuant to a definitive Offering Circular prepared by or on behalf of the issuer which would include material information, including risk factors, not contained herein and shall supersede this information in its entirety. Any decision to invest in securities or strategies described herein should be made after reviewing such definitive Offering Circular or comparable disclosure document, conducting such investigation as an investor deems necessary and consulting its own legal, accounting and tax advisors in order to make an independent determination of suitability and consequences of such an investment. References to specific investments, strategies or investment vehicles are for illustrative purposes only and should not be relied upon as a recommendation to purchase or sell such investments or to engage in any particular strategy. Portfolio data is expected to change and there is no assurance that the actual portfolio will remain as described herein. There is no assurance that the investments presented will be available in the future at the levels presented, with the same characteristics or be available at all. Past performance is no guarantee of future results and has no bearing upon the ability of Manager to implement its investment strategy or investment objective. Although our investment strategy emphasizes a proactive discipline, there is no assurance that our investment strategy will be successful and clients and investors risk the loss of some or all of an investment. Not all investment objectives will be achieved. This material does not purport to be a complete summary of all the risks associated with this strategy. A description of risks associated with this strategy can be found in the fund’s offering circular or other disclosure document. Copies of such documents are available free of charge upon request.
2. Investment Process – Any description or information regarding investment process or strategies is provided for illustrative purposes only, may not be fully indicative of any present or future investments and they may be changed at the discretion of the manager without notice. It is also under the manager’s discretion to go outside stated investment strategy parameters from time to time without prior notice. References to specific investments, strategies or investment vehicles are for illustrative purposes only and should not be relied upon as a recommendation to purchase or sell such investments or to engage in any particular strategy. Portfolio data is expected to change and there is no assurance that the actual portfolio will remain as described herein. There is no assurance that the investments presented will be available in the future at the levels presented, with the same characteristics or be available at all. Past performance is no guarantee of future results and has no bearing upon the ability of Manager to construct the illustrative portfolio and implement its investment strategy or investment objective.
3. Index – Indices are unmanaged and do not take into account market conditions or the costs associated with investing. Further, the manager’s strategy may deploy investment techniques and instruments not used to generate Index performance. For this reason, the performance of the manager and the Indices are not directly comparable.
4. Specific Portfolio Holdings – References to particular investment or strategies are for illustrative purposes only. Such references are not a complete list and other positions, strategies, or vehicles may experience results which differ, perhaps materially, from those presented herein due to different investment objectives, guidelines or market conditions. More information is available upon request.
5. Investment Team - There is no assurance that the persons referenced herein will continue to be involved with investing for this strategy, or that other persons not identified herein will become involved with investing assets for the Manager or assets of the strategy at any time without notice.

** Partial period return: 06/01/08 – 12/31/08

*** Firm assets prior to 1/1/17 are not applicable.

The value of any investment may rise or fall over time. Principal is not guaranteed, and investors may receive less than the full amount of principal invested at the time of redemption if asset values have declined. Individual account performance may be greater than or less than the performance presented for this composite.

MayTech Global Investments, LLC ("MayTech") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared this report in compliance with the GIPS standards. MayTech has been independently verified for the periods January 1, 2017 through December 31, 2019. The prior firm also claims compliance with the GIPS and had been independently verified for the time periods 2008-2016. The verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Notes:

1. MayTech Global Investments, LLC ("MayTech") is a registered investment advisor that provides investment management services. Established in 2017, performance prior to 1/1/17 occurred while the portfolio manager was affiliated with a prior firm. The portfolio manager was the only individual responsible for selecting the securities to buy and sell and MayTech meets the GIPS Portability requirements. The prior firm was GIPS compliant and independently verified. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
2. The Global Growth Composite includes all institutional and high net worth portfolios that invest in equities and equity related securities. The objective of the Global Growth Equity composite is long term growth specializing in the field of technology. Prior to 1/1/12, the composite was known as the Opportunistic All Cap Growth.
3. Although the strategy allows for equity exposure ranging between 75-100%, the typical allocation is between 90-100%.
4. The benchmark is the MSCI ACWI Total Return Index. The MSCI ACWI Index captures large and mid-cap representation across 23 Developed Markets and 24 Emerging Markets countries. With 2,756
5. constituents, the index covers approximately 85% of the global investable equity opportunity set. Net total return indexes reinvest dividends after the deduction of withholding taxes, using (for international indexes) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties.
6. Valuations are computed and performance is reported in U.S. Dollars.
7. Gross-of-fees returns reflect the reinvestment of dividends and other earnings and are presented before management fees but after all trading expenses.
8. Net-of-fees returns are calculated using actual management fees. The representative management fee schedule is as follows: 1.50% on the first \$2.5 million; 1.40% of the next \$2.5million; 1.30% of the next \$2.5 million; 1.20% of the next \$2.5 million or, 1.25% of the first \$10 million; and 0.90% thereafter.
9. The composite returns include the performance of non-fee-paying portfolios. The composite contained less than 1% of non-fee paying assets at the end of years 2015, 2016, 2017, 2018, and 2019.
10. This composite was created 06/01/2008. A complete list of composite descriptions is available upon request.
11. Internal dispersion is calculated using the equal-weighted standard deviation of annual gross returns of those portfolios that were included in the composite for the entire year. Where 5 or fewer portfolios were present for the entire year, the dispersion calculation is not significant and is marked as N/A.
12. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The standard deviation is not presented for 2009 through 2011 because monthly composite and benchmark returns were not available and is not required for periods prior to 2011.

Past performance is not indicative of future returns.
